We know how and of what Walters Pianos are constructed—can any other dealer say that and publish it truthfully? NO. Their pianos at seemingly low prices are the products of Tom, Dick and Harry piano manufacturers. Constructed of the very poorest materials, but the case is finished neatly to DECEIVE you.

Here's the best test of merit—compare other pianos with the celebrated Walters—strings for strings—action for action—tone for tone—note the differences—then you will realize at once the immense superiority of Walters

Planos. You will realize that all we say of them is true.

Walters Artiste Planos are built by the renowned Walters Plano Co., of New York, skilled expert plano makers.

The very finest materials are used in every inch of their construction.

The plans on which they are constructed are the best and most artistic known to the world's best plano The tone of Artiste pianos is deep, rich, mellow and resonant. They are so easily manipulated that the slightest touch produces a good, strong, clear note.

Your Home Is Not Complete Without a Walters Piano.

Every piano is fully guaranteed in every detail for a term of fifteen years. A fac-simile of this guarantee is inserted in the inside top lid of every Walters piano. DON'T buy a piano unless it bears a reliable maker's name. This is invaluable information for prospective piano purchasers. If a piano is minus a maker's name you can be sure that it is not high grade.

DON'T buy a so-called slightly used or second-hand piano at any price. It will soon become as useless and worthless as old machinery. If they were good, people would not part with them.

Why should you buy a piano that looks good from the outside but is wretched and worthless internally—when for practically the same money or less you get the best piano that human brains and skill can make? That means you must buy a WALTERS if you want the safest and best piano investment in the world.
